

REGIONAL BANK OF MIDLANDS (RBM)
CYBER THREAT INTELLIGENCE
EXECUTIVE DASHBOARD - SILENTBANKER INCIDENT
September 21, 2026

EXECUTIVE SUMMARY

Between March 25 and April 15, 2026, an attacker compromised RBM's systems through a malicious email attachment, exfiltrating 2.4 GB of sensitive data that included 50,000 customer records and SWIFT transfer credentials. The intrusion has been contained, threat actor access revoked, and malicious infrastructure blocked, while legally mandated customer notifications proceed. To address an estimated \$2–5 million exposure in regulatory fines and preserve customer trust, we request approval for \$350,000 in critical remediation funding (\$200,000 for advanced threat detection tools and \$150,000 for an independent forensic audit).

KEY METRICS

Days Active	Data Lost	Systems Hit	Customers Affected	Time to Contain
22 days	2.4GB	4	-50,000	24 hours

THREAT HEATMAP

(Risk Level by Business Function)

	LOW	MEDIUM	HIGH	CRITICAL
HIGH			Customer Accounts	SWIFT Access
LIKELIHOOD (Chance of Repeat)		Brand Reputation	Regulatory Compliance	
LOW	Physical Security	Employee Data		
Color Key: HIGH Risk MEDIUM Risk LOW Risk				

TIMELINE

March 25	April 15	April 16	Now
•	•	•	•
22 Days of Active Compromise		Discovery	Contain

ACTIONABLE RECOMMENDATIONS			
Priority	Action	Owner	Deadline
HIGH	Block attacker infrastructure (IPs and domains) from all network traffic	IT Operations	24 hours
HIGH	Reset all SWIFT wire transfer credentials and review recent transactions	Treasury	48 hours
HIGH	Complete customer notifications as required by state breach laws	Legal/Compliance	72 hours
MEDIUM	Deploy enhanced banking trojan detection tools (\$200k budget request)	Security Team	30 days
MEDIUM	Engage external forensics firm for independent review (\$150k budget request)	CISO	14 days

RESOURCE ASKS
What I need you to approve: - Budget: \$200,000 for advanced banking trojan detection tools. Current tools took 22 days to detect this attack; new tools would detect within hours, potentially preventing \$2-5M in regulatory fines. - Budget: \$150,000 for external forensics engagement. Regulators expect an independent review, and this provides legal protection for our findings. - Personnel: 200 hours across IT, Security, Legal, and Treasury for remediation and notification efforts (already within existing budgets). Estimated Total Cost (Short-term): \$350,000 Estimated Total Cost (Long-term): \$500,00

STATUS
Current Incident Status: ● CONTAINED ○ ACTIVE ○ ERADICATED ○ NOT STARTED Customer Notification Status: ○ NOT STARTED ● IN PROGRESS ○ COMPLETED Regulatory Filings Status: ○ NOT STARTED ● IN PROGRESS ○ COMPLETED Remediation Status: ● COMPLETED ○ IN PROGRESS ○ NOT STARTED
