

Raul Austero Varias Jr.

Batch 20 – AMA University Inc.

File 1: Validated IoCs from RBM Breach

Investigation VALIDATED IoCS – RBM BREACH (SILENTBANKER)

VALIDATION STATUS: All IoCs confirmed malicious via multiple sources

VALIDATION DATE: 2026-04-23

CONFIDENCE SCORES: Based on source reliability + technical validation

CATEGORY A: C2 INFRASTRUCTURE (Highest Confidence – Multiple sources)

ID	IoC Type	Value	Confidence	Source	First Seen	Last Seen
A1	IP	185.143.223.115	100	Firewall, EDR, OSINT (3 sources)	2026-03-25	2026-04-23
A2	IP	185.143.223.116	95	OSINT + Dark Web (2 sources)	2026-04-11	2026-04-23
A3	Domain	banking-update service.com	100	Firewall, EDR, OSINT, Dark Web	2026-04-01	2026-04-23
A4	Domain	swift-message check.net	95	OSINT + Dark Web (2 sources)	2026-04-11	2026-04-23
A5	URL	http://185.143.223.115/update.dat	100	EDR (confirmed download)	2026-03-25	2026-04-15
A6	URL	http://185.143.223.115/mimikatz.exe	100	EDR (confirmed download)	2026-03-26	2026-04-16

CATEGORY B: PHISHING/DELIVERY INFRASTRUCTURE (Medium-High Confidence)

ID	IoC Type	Value	Confidence	Source	First Seen	Last Seen
B 1	Domain	rbmsupport.com	95	Firewall, Email logs, OSINT	2026-03-28	2026-04-23
B 2	Filename	SecurityPatch.exe	90	EDR, Email attachment logs	2026-03-25	2026-04-15

B 3	Filename	Invoice.exe	90	EDR, Email attachment logs	2026-04-01	2026-04-23
B 4	Email	spoofed sender@rbmsupport.com	85	Email gateway logs	2026-03-25	2026-04-23

CATEGORY C: FILE HASHES (Medium Confidence – No malware sample yet)

ID	IoC Type	Value	Confidence	Source	First Seen
C1	MD5	a1b2c3d4e5f6789012345678901234ab	85	EDR (loader)	2026-03-25
C2	MD5	b2c3d4e5f6789012345678901234ab12	80	EDR (update.dat)	2026-03-25
C3	MD5	c3d4e5f6789012345678901234ab12c3	80	EDR (mimikatz.exe)	2026-03-26

C4	SHA256	3f5c9e2a1b4d8f7e6c3a9b2d4f1e8c7a6b5d4f3e2c1a9b8c7d6e5f4a3b2c1d0	85	OSINT (SilentBanker loader)	2026-04-01
-----------	--------	---	----	--------------------------------	------------

CATEGORY D: TACTICS, TECHNIQUES, AND PROCEDURES (TTPs)

ID	TTP Type	Value	MITRE ID	Confidence
D1	Attack Pattern	Phishing: Spearphishing Attachment	T1566.001	100
D2	Attack Pattern	Command and Scripting Interpreter: PowerShell	T1059.001	100
D3	Attack Pattern	OS Credential Dumping: LSASS Memory (Mimikatz)	T1003.001	100
D4	Attack Pattern	Scheduled Task	T1053.005	100
D5	Attack Pattern	SMB/Windows Admin Shares (PsExec)	T1021.002	100
D6	Attack Pattern	Exfiltration Over C2 Channel	T1041	100

CATEGORY E: THREAT ACTOR INFORMATION (Attribution)

ID	Type	Value	Confidence	Source
E1	Threat Actor Alias	SilentTrader	75	Dark Web (self-claimed, not confirmed)
E2	Threat Actor Motive	Financial	85	Targeting profile + no ransom
E3	Infrastructure Seller	SilentTrader (forum user)	90	Dark Web (multiple posts)

VICTIM INFORMATION (For tagging purposes)

Field	Value
Victim Organization	Regional Bank of Midlands (RBM)
Victim Sector	Financial Services / Banking
Victim Country	United States
Estimated Data Loss	2.4 GB
Incident Date Range	2026-03-25 to 2026-04-15

File 2: MISP Event JSON Export Template – Copy this as your deliverable structure. You will fill in the attributes.

```
{
  "Event": {
    "info": ",SilentBanker Banking Trojan – Regional Bank of Midlands Breach – March/April 2026",
    "date": "2026-09-21",
    "threat_level_id": "2",
    "analysis": "2=Completed]",
    "distribution": "1=Community",
    "sharing_group_id": null,
    "uuid": "a1b2c3d4-e5f6-4a7b-8c9d-0e1f2a3b4c5d",
    "published": false,
    "timestamp": "1713897600",
    "tags[
      { "name": "tlp:amber", "colour": "#FFA500"},
      { "name": "malware:family=\"SilentBanker\"", "colour": "#FF0000"},
      { "name": "threat-actor:name=\"SilentTrader\"", "colour": "#800080"},
      { "name": "target:sector=\"Financial\"", "colour": "#008000"},
      { "name": "verification:confirmed", "colour": "#00FF00"},
      { "name": "status:contained", "colour": "#FFFF00"}
    ],
    "Attribute": [],
    "Object": [],
    "Galaxy": [
```

```

{

  "type": "mitre-attack-pattern",
  "GalaxyCluster": []
}
]
}
}

```

MISP Attribute Template – For each IoC, create an attribute object like this:

```

"Object": [
  {
    "name": "network-connection",
    "meta-category": "network",
    "description": "C2 communication from infected host",
    "Attribute": [
      {
        "type": "ip-src",
        "category": "Network activity",
        "value": "10.12.45.22",
        "to_ids": false,
        "comment": "Internal victim IP - DO NOT SHARE EXTERNALLY",
        "tags": [{"name": "tlp:red", "colour": "#FF0000"}]
      },
      {
        "type": "ip-dst",
        "category": "Network activity",
        "value": "185.143.223.115",
        "to_ids": true,
        "comment": "C2 server"
      },
    ]
  }
]

```

```
{
  "type": "port",
  "category": "Network activity",
  "value": "443",
  "to_ids": false
},
{
  "type": "protocol",
  "category": "Network activity",
  "value": "https",
  "to_ids": false
}
],
{
  "name": "file",
  "meta-category": "file",
  "description": "Malware payload download",
  "Attribute": [
    {
      "type": "url",
      "category": "Payload delivery",
      "value": "http://185.143.223.115/update.dat",
      "to_ids": true,
      "comment": "SilentBanker payload download URL" },
    {
      "type": "md5",
      "category": "Payload delivery",
      "value": "b2c3d4e5f6789012345678901234ab12",
```

```
"to_ids": true,  
"comment": "MD5 hash of update.dat"  
},  
{  
  "type": "filename",  
  "category": "Payload delivery",  
  "value": "config.dat",  
  "to_ids": false,  
  "comment": "Saved filename on disk"  
}  
]  
}
```

File 4: MISP Tag Reference Guide – Standardized CTI lexicons to use.

MISP TAG REFERENCE GUIDE

Use these exact tag formats for standardization

TRAFFIC LIGHT PROTOCOL (TLP) – ONE required tag per

event tlp:red - Not for sharing outside direct response team

tlp:amber - Limited sharing within organization and partners

tlp:green - Broad sharing within community

tlp:white - Unlimited public sharing

Recommendation for RBM incident: tlp:amber (can share with financial sector partners)

CONFIDENCE TAGS – ONE per attribute (0-100 scale)

confidence:100 - Confirmed, multiple independent sources

confidence:95 - Confirmed, strong evidence

confidence:90 - Confirmed, single reliable

source **confidence:85** - Highly likely

confidence:80 - Likely

confidence:75 - Probable

confidence:70 - Reasonable

confidence:50 - Moderate (default if

unknown) **confidence:30** - Possible but weak

confidence:0 – Unconfirmed

MALWARE FAMILY TAGS – Apply to all attributes

malware:family="SilentBanker"

malware:family="Mimikatz" (for the tool itself)

THREAT ACTOR TAGS – Apply to event level

threat-actor:name="SilentTrader"

threat-actor:motive="Financial"

threat-actor:type="Cybercriminal"

SOURCE TAGS – Apply

source:type="Firewall" source:type="EDR"

source:type="OSINT"

source:type="Dark Web"

source:type="Email Gateway"

source:type="Sandbox" to each attribute

TARGET SECTOR TAGS – Apply to event level

target:sector="Financial"

target:sector="Banking"

VERIFICATION STATUS TAGS – Apply to event level

verification:confirmed - IoCs validated by multiple sources

verification:incomplete - More validation needed

verification:falsepositive - Marked as benign

ATTACK PATTERN TAGS (MITRE ATT&CK) – Apply via Galaxy

attack:pattern="T1566.001" - Phishing: Spearphishing Attachment

attack:pattern="T1059.001" - PowerShell

attack:pattern="T1003.001" - Mimikatz/LSASS

Dumping attack:pattern="T1053.005" - Scheduled Task

attack:pattern="T1021.002" - PsExec Lateral

Movement attack:pattern="T1041" - Exfiltration Over
C2 Channel

EVENT STATUS TAGS

status:ongoing - Incident still active

status:contained - Incident contained

status:eradicated - Adversary removed

SHARING GROUP RECOMMENDATIONS

Sharing Group 1: Internal SOC (TLP:RED)

Sharing Group 2: Financial Sector ISAC

(TLP:AMBER) Sharing Group 3: Law Enforcement

(TLP:AMBER)

Sharing Group 4: Trusted Partners (TLP:GREEN)
